

Section 3.11.4 of the WSFS Constitution says,

The complete numerical vote totals, including all preliminary tallies for first, second, ... places, shall be made public by the Worldcon Committee within ninety (90) days after the Worldcon. During the same period the nomination voting totals shall also be published, including in each category the vote counts for at least the fifteen highest vote-getters and any other candidate receiving a number of votes equal to at least five percent (5%) of the nomination ballots cast in that category.

*The Hugo Administrator reports:*

There were 483 valid nominating ballots and 8 invalid nominating ballots.

There were 972 final ballots received, of which 895 were valid. Most of the invalid final ballots were electronic ballots with errors in voting, which were corrected by later resubmission by the members — only the last received ballot for each member was counted.

**Best Novel** (382 nominating ballots cast)
